

Sharp AR-C160 Laser Copier-Printer-Scanner

Highly Recommended

Fast simplex copy speeds, outperforming rival units. Very good Pantone matching within printer function. Good overall image quality. Face Down Stacker Finisher maximizes printer productivity (allowing printing to commence after the first page has been ripped). Also enables long uninterrupted print runs to be carried out; further increasing productivity versus units reliant upon sorter bin finishers. On printing productivity the Sharp outperformed our 3 competing devices by up to 138%. Ability to scan to the RIP hard drive and pull back color files to the desktop PC using Fiery WebScan.
